

6th European Workshop on Epitaxial Graphene and 2D Materials

Tuesday, May 14, 2024

Session 1: Chair - NH Hotel (4:00 PM - 6:15 PM)

| time | [id] title | presenter |
|---------|--|-----------------------------|
| 4:00 PM | [73] Ordered and tunable Majorana-zero-mode lattice in iron-based superconductors | GAO, Hong-Jun |
| 4:45 PM | Coffee Break ??? | |
| 5:15 PM | [31] Probing the phase transition to a coherent 2D Kondo lattice | VAZQUEZ DE PARGA, Amadeo L. |
| 5:35 PM | [60] Spin-orbit induced splitting in two-dimensional Dirac Cones in single and double antimony layers on Au(111) | VLAIC, Sergio |
| 5:55 PM | [77] Giant tunable out-of-plane spin polarization in a two-dimensional bilayer of topological antimonene | SHEVERDYAEVA, Polina |
