

6th European Workshop on Epitaxial Graphene and 2D Materials

Wednesday, May 15, 2024

Session 2: Chair - NH Hotel (9:00 AM - 11:00 AM)

time	[id] title	presenter
9:00 AM	[94] Collective electronic states in a two-dimensional heavy-fermion system	UGEDA, Miguel
9:30 AM	[53] Confining correlated states in single-layer MoS2	JOLIE, Wouter
10:00 AM	[67] Magnetocrystalline Anisotropy of Heavy Rare-Earth Atoms on Graphene: From DFT to Crystal Field Theory	CARBONE, Johanna Paulina
10:20 AM	[61] Electronic structure of organic thin film $\text{mori}\square'$ superstructure on a topologically protected surface: a high-resolution angle-resolved photoemission spectroscopy study	PANDEYA, Ram Prakash
10:40 AM	[38] Tunable ferromagnetic order in 2D layers of transition metals dichlorides	CORSO, Martina
