

# 6th European Workshop on Epitaxial Graphene and 2D Materials

## Friday, May 17, 2024

### Session 8 - NH Hotel (9:00 AM - 10:45 AM)

time	[id] title	presenter
9:00 AM	[93] Probing and controlling collective states of monolayer TMDs and their van der Waals heterostructures	KING, Philip
9:45 AM	[58] One-dimensional electronic structure of phosphorene chains	KRIVENKOV, Maxim
10:05 AM	[39] Nanograting formation and electron scattering in epitaxial borophene on iridium: Experimental and theoretical insights	KAMAL, Sherif
10:25 AM	[42] A holistic structural understanding of epitaxially-grown Bi/Au(111) Moiré superstructures	VEZZONI, Pablo
