

6th European Workshop on Epitaxial Graphene and 2D Materials

Friday, May 17, 2024

Session 9 (11:05 AM - 12:35 PM)

time	[id] title	presenter
11:05 AM	[90] Single cobalt and nickel atoms incorporated in graphene: synthesis, structure, stability and potential applications	AFRICH, Cristina
11:35 AM	[69] Large area growth of monolayer honeycomb SiC atop transition metal carbides	POLLEY, Craig
11:55 AM	[74] Construction of atomic monolayer Si ₉ C ₁₅ on metal surfaces	LI, Geng
12:15 PM	[30] 1D- and 2D-materials chemical characterization at the submicron scale by Scanning Photoelectron Imaging and Spectromicroscopy	AMATI, Matteo
