Session 8 - Biosystems II: Biosystems II

Session

4:25 – 4:55 PM

Mechanism in Reversibly Switchable Fluorescent Proteins

Speaker

Steve Meech

4:55 – 5:15 PM

Multi-step 11-cis to all-trans retinal photoisomerization in bacterhodopsin, an unusual microbial rhodopsin

Speaker

John T.M. Kennis

5:15 – 5:35 PM

Novel femtosecond photoreactions in flavo-enzymes

Speaker

Marten Vos

5:35 – 5:55 PM

Optical coherent control of biological electron transfer

Speaker

Dongping Zhong

5:55 – 6:15 PM

Excitation dynamics in DNA-templated silver nanoclusters

Speaker

Donatas Zigmantas

6:15 PM
