

## Session Program

May 20 - 21, 2026

# NICE2026 Nonlinear Imaging and Coherent Effects

## *Coherent-based Diffractive Imaging*

Latisana, Italy

# Wed, May 20

9:15 AM

## Coherent-based Diffractive Imaging

Session | Location: Latisana, Italy

9:15 - 9:50 AM **Exploring the Limits of Coherent Diffractive Imaging**

**Speaker**

Henry Chapman

9:50 - 10:25 AM

**Broadband ptychography for soft X-ray imaging with a high-order harmonic source**

**Speaker**

Wilhelm Eschen

10:25 - 10:50 AM

**Using the longitudinal coherence of a seeded free electron laser to enable single-shot videography**

**Speaker**

Abraham Lewis Levitan

10:50 AM
