May 20 - 21, 2026

NICE2026 Nonlinear Imaging and Coherent Effects

Structured illumination - Multidimensional Imaging

Latisana, Italy

Thu, May 21

11:00 AM

Structured illumination - Multidimensional Imaging

Session | Location: Latisana, Italy

11:00 - 11:35 AM

Structured Light in Nonlinear Spectroscopy: Breaking Selection Rules and Engineering Chiral Response

Speaker

Kayn Forbes

11:35 AM - 12:10 PM

Magnetization Dynamics probed with Helicoidal Dichroism

Speaker

Dr Thierry Ruchon

12:10 - 12:35 PM

From Focusing to Structured Light: The Evolution of KAOS at the FERMI FEL

Speaker

Michele Manfredda

12:45 PM
