

Session Program

May 20 - 21, 2026

NICE2026 Nonlinear Imaging and Coherent Effects

Sample Environment and Instrumental Developments

Latisana, Italy

Thu, May 21

2:15 PM

Sample Environment and Instrumental Developments

Session | Location: Latisana, Italy

2:15 - 2:50 PM

Diffraction X-ray optics for ultra-fast science - design, fabrication and experiments

Speaker

Christian David

2:50 - 3:25 PM

Nonlinear X-Ray Spectroscopy of Interfaces

Speaker

Jake Koralek

3:25 - 4:00 PM

Soft X-ray hybrid detectors using LGAD sensors

Speaker

Anna Bergamaschi

4:00 - 4:20 PM

Nanoscale coherent surface phonon XUV spectroscopy of optically-induced phase transition in FeRh

Speaker

Naman Agarwal

4:20 PM
